SUMMARY

PGDM Finance and Analytics candidate (Great Lakes, 2027). At **Paytm**, applied customer payments daily and **reconciled the receivables book to the general ledger**; independently built working models for **margin calls and collateral optimisation**, **daily P&L explain** by PV01 and FX delta, and **bond pricing** with duration and convexity.

EDUCATION

Great Lakes Institute of Management, Gurugram | PGDM, Finance and Analytics **2025 - 2027**
Maharaja Agrasen College, University of Delhi | B.A. (Hons) English | CGPA 6.76/10 **2021 - 2024**
St. Mary's Senior Secondary School, Delhi | Class XII 90.8% | Class X 89.2% | Subject topper in Class XII and X **2021 | 2019**

EXPERIENCE

Paytm (One97 Communications Ltd.), Noida | Revenue Assurance Intern **Apr 2026 - Jun 2026**

- **Applied customer payments daily in SAP**, matching receipts to invoices by UTR and clearing short payments, TDS deductions, unapplied receipts and over-payments; **reconciled the debtors book to the GL** ('Matched', March 2026)
- **Built an ETA-vs-collections framework** that tracks committed vs realised collections **daily instead of at month end**, with RAG bands and one-click stakeholder emails: replaced a 4-day manual cycle, **saved 30 hours a month**, adopted by a second team
- **Monitored working capital** across advertising, FMCG, D2C and government portfolios (**ageing, DSO, ECL provisioning**); replaced **23 trackers** with one **VBA** reporting layer that writes the monthly MIS commentary: **4 hours to under 1 minute**
- **Automated recovery notices** with an approval trail (**3 hours to 30 minutes** each, 40 a quarter); in all, five frameworks freed **~80 hours a month**; presented to all Revenue Assurance teams at Automation Friday

Perfect Solutions (white-goods retail) | CRM and Accounts Manager: company balances and finances; retention up **12%** **2024**

Haryana Electricals (retail) | Store Manager: ordering, sales and daily cash reconciliation **2021**

PROJECTS: TREASURY, MARKETS AND RISK

- **Collateral and Margin Call Model** (independent, synthetic data): revalues 8 OTC counterparties' exposure for rate, FX, equity and commodity moves; applies **thresholds, MTA** and dispute tolerance; picks the **cheapest-to-deliver collateral** (cash or securities) by **haircut and funding cost**, saving **~\$82K a year** vs posting cash
- **Daily P&L Explain** (independent): attributes four desks' P&L to their **risk sensitivities (PV01, FX delta, equity delta, gamma, vega)**, carry, new trades and fees; flags unexplained P&L above tolerance and drafts desk commentary (**97.4% explained**)
- **Bond Pricing and Credit** (independent): price, YTM, **modified duration** (3.97) and **convexity**, a +100 bp yield shock (**-3.9%**), spread over G-sec; issuer leverage and interest cover mapped to an indicative rating and **NCD coupon**
- **Trade Break Reconciliation** (independent): 240 trades (**FX forwards and swaps, IRS, repo, CDS**) matched between booking and confirmations; 17 breaks classified by type and age and routed to owners
- **Automated Cash Reconciliation** (academic project, Gen AI): reads inbound payment advices daily, matches each to the referenced receipt and updates the tracker without manual entry; part-payments stay as open items
- **Portfolio Management** (course project, group of 5): **covariance matrix, efficient frontier** and a 5,000-scenario search across 14 assets for five investors' utility-maximising allocations (Sharpe **0.452 to 0.728**)
- **Forensic Data Testing** (analytics project): six control tests in **Python** and Power BI (duplicates, Benford's Law, three-way match) on 12,095 synthetic invoices (₹123.8 Cr), flagging 1,152 exceptions (₹25.5 Cr)
- **Equity Research, Dabur India** (FLP live project): three-statement model, FCFF DCF (WACC 10.35%), comps and a **reverse DCF**; 6-page initiation report: HOLD, target ₹395
- **Market notes** (portfolio site): India's record FY27 government borrowing and the 10-year yield, the corporate bond market's slow start and rush to lock in AAA yields, and the record IPO quarter

CERTIFICATIONS AND JOB SIMULATIONS

- **Financial Markets**, Yale University | **Equity Research and Financial Modeling Analyst**, FLP (live project) | **Power BI Data Analyst**, Microsoft | **Google Data Analytics** | **Python Core to Advanced**, Pregrad | **Lean Six Sigma Green Belt**
- **Forage job simulations**: J.P. Morgan Quantitative Research | Citi Markets Sales and Trading | Standard Chartered Credit Analyst | J.P. Morgan Investment Banking | Bank of America Investment Banking
- **Also completed**: COBIT 2019 Foundation | Advanced CRM, Microsoft | **In progress**: Sales and Marketing Leadership Program

SKILLS

Treasury and markets: cash forecasting, cash application and reconciliation, collateral and margin (cheapest-to-deliver, haircuts, MTA), P&L attribution (PV01, FX delta, Greeks), bond pricing (YTM, duration, convexity), FX forwards and swaps, repo

Quantitative: mean-variance optimisation, scenario and sensitivity analysis, regression, DCF and WACC

Tools: Excel (VBA, Power Query), Python (pandas), Power BI, Tableau, SAP, Apps Script, PowerPoint | **Languages**: English, Hindi

LEADERSHIP AND ACHIEVEMENTS

- **Treasurer**, Self Interest Club, GLIM-G (2026): budgeting and financial oversight | **Led a 15-member team** running a 3-day festival for 2,000+ attendees | **Secured recruiters** for GLIM-G's internship drive
- **Top 15, Crest x Grant Thornton** case competition (root-caused a 65% cycle-time variation across 100 hospital trips) | **Taught AI and coding** to Class 7 students, APS Noida (Rotary International) | **Volunteer**, Sanatan Dharma Organisation
